

DC Series Double Decker Terminals

General Information

Brand: Degson

Products type: The DC range of screw connection terminal blocks are used for termination of connections and field wiring in a switchboard or control panel. The double deck variant saves space on the Din rail compared to single level terminals.

Suitable For: With steel cage clamps, the DC series is a general purpose range for all applications.

Specifications

Technical Characteristic	Value
Connection Type	Screw Connection
Mounting	DIN Rail NS 35/7.5, NS35/15
Carrier Material	Copper
Screw & Cage Material	Steel
Housing Material	PA66 UL94V-0
Number of voltages	2 or 1 with plug-in bridge
Total Connection points	4
Colours	Grey, Blue & Red

Part Numbers

Colour	Part Number
Grey	DCKKB2.5
Blue	DCKKB2.5.2
Red	DCKKB2.5.4
Grey End Plate	D-DCKKB2.5

Product Dimensions

DCKKB2.5
